

# On-Site Physical Therapy Services

*Bringing injury recovery and prevention to you*

Reducing your injury costs may start by considering an alternative method of obtaining therapy services. Atlas provides on-site services to simplify access, reduce costs, improve return to work methods, and simply avoid injuries before they occur.

## We Provide Unequaled Balance

We charge our clients a simple hourly rate that is well below the hourly rate reflected through standard physical therapy CPT billing codes. By doing so, we provide employees treatment until they can safely return to work, and do so at a fraction of the cost of normal therapy. In the end, your employees are better prepared for work and your rehabilitation costs are lower.

## We Only Work On-site

Our clinic is within your four walls. Not only do we provide easy access to therapy, we work with injured employees at their normal or limited-duty job site to help assure their safety and productivity. By working on-site, we not only understand rehabilitation, we understand your company.

## We Prevent Injuries

Uniquely, our therapists' goal is to not provide therapy. Physical therapy will comprise only a part of our therapists' contracted time at your facility. They do not sit and wait for their next patient. Instead, they focus on providing a variety of injury prevention services including pre-employment screens, ergonomics, early intervention, wellness, and/or stretching services as required. In most cases, our therapy cost savings will pay for our injury prevention services.

## We Don't Require a Big Commitment

Through our nationwide network of professionals, we can provide expert care almost anywhere and everywhere. The best part – we don't need you to commit to a full-time position. We can provide part-time support, if that is all you need or can afford. No matter how much time is invested, you can have full confidence that your employees are receiving expert care.

## Nationwide Network

No matter where you live, Atlas is there. We have teamed with a select group of the best healthcare professionals across the country. Chances are there's an Atlas professional in your community. It's our commitment to keeping your people injury-free and your business on track.

**Need help? Have a question? Call or email us and we'll work with you to create a solution that fits with your business and your workforce.**
